Extend the vast management capabilities of SupplyPro beyond the vending machine with Virtual Inventory Management (VIM).

From the latest SupplyLink touchsreen interface, VIM delivers the full range of features associated with items physically loaded in to any SupplyPro vending machine. Across the most expansive sites with the most diverse range of products and assets, up to 10,000 items can be monitored and tracked remotely, 24 hours a day.

VIM integrates seamlessly in to the supply chain to control the who, what, where and when of your inventory movement. VIM storage locations can be assigned by the system or named by the administrator and individually assigned characterisitcs and controls including loan periods, allocation codes, substitute products and multiple items grouped as a kit.

SupplyPort offers remote access to scheduled reports or instant data retrieval of every single transaction against every item in Virtual Inventory Management.

VIM can operate from a standalone SupplyLink or from any device in the SupplyPro hardware family.

Issue a customised pick receipt with Tooling Intelligence's exclusive VIM Printer option.

Use VIM Controlled Locking to restrict access to cabinets, stock cages and storerooms.

- Electronic inventory alerts
- Allocation codes for usage tracking
- Check-in and check-out returnable assets
- Standard and custom inventory reports

Remote Support: SupplyLink's network connection allows remote support from our dedicated UK vending experts.

Create your own virtual stock locations:

Externally Hosted: VIM operates through SupplyPort, requiring no on-site servers and very little internal IT involvement.

ISO 9001:2015 Certified 🗭

Tooling Intelligence provides innovative inventory management solutions to organisations and industries across the United Kingdom and Europe.

We are experienced in providing state-of-the-art inventory management technology to our customers. We were founded in 2006 by a team of engineering experts and business specialists, who had the vision to combine cutting-edge solutions with premium customer service. We work with partners across numerous sectors, including aerospace, medical, precision engineering, oil and gas and many more.

Cutting-edge products

We have a broad range of products in our portfolio. Whether you are looking for a mobile inventory management solution for your on-the-go teams or a heavy-duty dispensing unit with complete visibility, you'll find something to suit your requirements with us.

Browse our website to learn more about our products or contact our experienced team for more information.

Access ongoing support

We know that the journey doesn't end once the installation is complete. We pride ourselves on our level of service, making sure you receive the support you need throughout the process. Whether you want to expand your existing inventory management solution or need technical help, our service team are always on hand to assist you.

Personalised service

We are an independent business, which means we always provide a high-quality, personalised service to our clients.

From the very start of your project, we work closely with you to find the right inventory management solution for your application. Our products are customisable too, which means we can help you design and create the ideal technology that meets your exact requirements.

Visit our centre

We understand that the best way to appreciate our products is to see them in action. That's why we invite our customers to our specialist Demonstration Centre to see the full potential of the solution in person.

Here, you can browse the full SupplyPro product range, as well as our service and support tools. You will have the opportunity to meet our knowledgeable team too.
