About SupplyMobile:

Take the vast capabilities of SupplyPro inventory management with you across your business network with SupplyMobile, the easy-to-use low cost mobile solution for precise stock control in any environment.

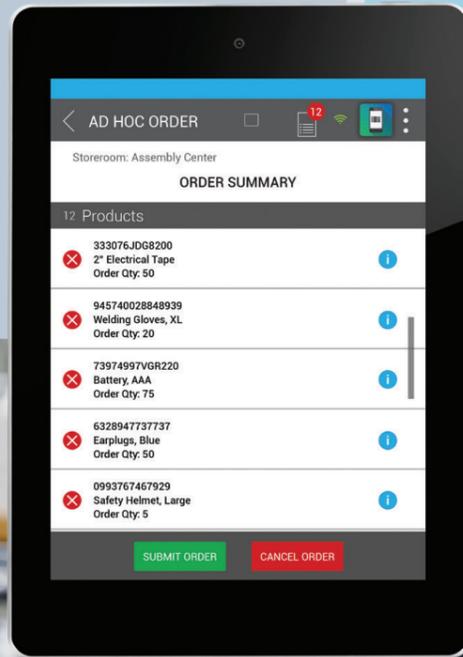

SupplyMobile integrates with the SupplySystem Intelligent Software product family to help you control and understand the movement of consumables, equipment and assets across your business. Synchronised with SupplyPro's SupplyPort cloud database via Wifi or 4G connection, SupplyMobile can operate as

an entry level solution on its own, or in conjunction with any other SupplyPro product. Each SupplyMobile device can support single or multiple storerooms, and multiple SupplyMobile devices can be used together to manage larger warehouses.

Who can use SupplyMobile?

SupplyMobile is suitable for organisations of any size. Whether you want to use one device to manage entry levels of inventory or you plan to connect multiple devices to monitor large production sites, the choice is yours.

Whether you are an existing SupplyPro user or new to smart inventory management, your business will benefit from improved efficiency, better accountability and intuitive reporting.

SupplyMobile Benefits:

Construct your virtual storeroom and assign rules to your products and locations.

- ⚙️ Create your own virtual storeroom layout
- ⚙️ Supports single or multiple storerooms
- ⚙️ Multiple devices can be used in conjunction across larger sites
- ⚙️ Secure connection via Wifi or 4G
- ⚙️ No interruption to workflow when network connection is lost
- ⚙️ Manage over 10,000 locations / products
- ⚙️ Handheld scanner for quick search & select
- ⚙️ Proactive stock level alerts
- ⚙️ Cost centre allocation and usage tracking
- ⚙️ Generate instant ad-hoc orders on the move.

Work Offline: All activity is stored and reported when you get back online.

Monitoring and Alerts: Automated monitoring of your inventory with alerts if stock availability is critical.

Tooling Intelligence provides innovative inventory management solutions to organisations and industries across the United Kingdom and Europe.

We are experienced in providing state-of-the-art inventory management technology to our customers. We were founded in 2006 by a team of engineering experts and business specialists, who had the vision to combine cutting-edge solutions with premium customer service. We work with partners across numerous sectors, including aerospace, medical, precision engineering, oil and gas and many more.

Cutting-edge products

We have a broad range of products in our portfolio. Whether you are looking for a mobile inventory management solution for your on-the-go teams or a heavy-duty dispensing unit with complete visibility, you'll find something to suit your requirements with us.

Browse our website to learn more about our products or contact our experienced team for more information.

Access ongoing support

We know that the journey doesn't end once the installation is complete. We pride ourselves on our level of service, making sure you receive the support you need throughout the process. Whether you want to expand your existing inventory management solution or need technical help, our service team are always on hand to assist you.

Personalised service

We are an independent business, which means we always provide a high-quality, personalised service to our clients.

From the very start of your project, we work closely with you to find the right inventory management solution for your application. Our products are customisable too, which means we can help you design and create the ideal technology that meets your exact requirements.

Visit our centre

We understand that the best way to appreciate our products is to see them in action. That's why we invite our customers to our specialist Demonstration Centre to see the full potential of the solution in person.

Here, you can browse the full SupplyPro product range, as well as our service and support tools. You will have the opportunity to meet our knowledgeable team too.
